

2022 Street Improvement Project

The Borough's 2022 Street Improvement Project includes the installation of final paving on Locust Street from North 3rd Street to North 6th Street; the installation of eight (8) new ADA ramps; the installation of thermoplastic lines including stop bars and hatched crosswalks; stormwater inlet repairs adjacent to the Fairview Cemetery on 300-block of Locust Street; and the installation of and assorted curb and sidewalk repairs.

The project is scheduled to begin construction in late May 2022, and to be complete by mid-August 2022. This Project will be funded by a combination of Liquid Fuels funding and Borough General Fund revenues.
