

## **Denver Borough's 2018 Street Improvement Project Summary**

Listed below is a summary of the major street and infrastructure improvement projects that are proposed for Denver Borough in 2018:

### **2018 Street Improvement Program – Projected Cost: \$151,250.00**

This project includes the installation of 29 ADA ramps on North 4<sup>th</sup> Street between Main Street and Locust Street; the installation of two (2) ADA ramps on Walnut Street at North 3<sup>rd</sup> Street; the installation of four (4) ADA ramps on Lancaster Avenue (2 ramps at Green Lawn Garage and two (2) ramps on Jefferson Avenue); and base repair on sections of Walnut Street from North 3<sup>rd</sup> Street to the Walnut Street Bridge and on sections of North 4<sup>th</sup> Street and Locust Street.

### **2018 Crack Sealing**

For one (1) week in the early fall of 2018 the Borough's Public Works Department will seal cracks and breaks in streets located throughout the Borough. The listing of streets will be finalized by the Street Committee in January, 2018.
